## Welcome

Welcome to the October issue of the Envision Alumni Association newsletter, a publication of NYLF, JrNYLC, GYLC, ISLP, and more. Stay up-to-date on the exclusive benefits offered to alumni by visiting [EnvisionAlumni.com](http://EnvisionAlumni.com)!

Recent **NYLF National Security** scholars (pictured above) got to sit in the rear of a U.S. Marine Corps MV-22 Osprey VTOL aircraft. This V-22 Osprey is one of 112 total V-22 tilt-rotor aircrafts which serve a joint-service, medium-lift, multi-mission troop transporter. It's exciting site visits and opportunities like this that make **NYLF National Security** so enriching for scholars interested in defense, intelligence and diplomacy. Interested in a career in National Security - the next sessions of NYLF National Security begin on March 1, 2016. **Enroll now** and apply your \$200 alumni grant toward tuition.

We received an amazing response to our Chase the Race 2016 contest! The Envision team is working hard to review the applications in a timely manner.

We look forward to announcing the finalists in the coming weeks on our website and through social media. [ChasetheRace2016.com](http://ChasetheRace2016.com)

## Webinars

On October 19th, Andrew Potter, Chief Academic Officer at Envision hosted **The Power of You: Unlocking Your Potential for a Global Age**, an alumni-exclusive webinar. During the 50-minute webinar, alumni (and parents, too) learned how they can leverage their Envision experience to be better equipped to compete and collaborate in a global knowledge economy. If you missed it or want to watch it again, you can [view the recording](#) online.

## Alumni Ambassador Program

We are thrilled by the large number of alumni who applied to become an Alumni Ambassador – to share their unique perspective and help other students turn their aspirations into reality. Applications are currently under review, and those chosen to serve as Ambassadors will be announced in the coming weeks. Stay tuned!

## Alumni Spotlight: Dawson W.

*"I wanted to attend NYLF Explore STEM, mostly to enhance my influence on the planet. Being somewhat unsure about my plans for my life, I thought the program would help me see my path! It was exciting to learn about my potential and how to fulfill it."*
